Attorney Docket No. 2004_2037A
Serial No. 10/519,536
December 22, 2006

AMENDMENTS TO THE CLAIMS

1. (Cancelled)

2. (Currently amended) An anti-chicken coccidiosis composition for oral administration comprising an antibody obtained from an egg of a chicken immunized with an antigenic outermembrane protein or an immunogenic fragment thereof a soluble outer membrane protein of 18 to 27 kD from the merozite of Eimeria acervulina having a common immunogenicity shared among sporozoite and merozoite of *Eimeria acervulina*, *Eimeria tenella* and *Eimeria maxima* which are associated with chicken coccidiosis, and a lactic acid bacterium.

3. (Previously presented) A composition according to claim 2 further comprising an antibody obtained from an egg of a chicken immunized with *Clostridium perfringens*.

4. (Previously presented) A composition according to claim 2 which is used for prevention or treatment of chicken coccidiosis.

5. (Previously presented) An avian feed comprising the composition according to claim 2.

6. (Currently amended) A method for preventing or treating chicken coccidiosis, which comprises orally administering to a bird an antibody obtained from an egg of a chicken immunized with an antigenic outermembrane protein or an immunogenic fragment thereof a soluble outer membrane protein of 18 to 27 kD from the merozite of Eimeria acervulina having a common immunogenicity shared among sporozoite and merozoite of *Eimeria acervulina*, *Eimeria tenella* and *Eimeria maxima* which are associated with chicken coccidiosis.

Attorney Docket No. 2004_2037A
Serial No. 10/519,536
December 22, 2006

7. (Previously presented) The method according to claim 6 wherein the antibody is orally administered in combination with a lactic acid bacterium and/or an antibody obtained from an egg of a chicken immunized with Clostridium perfringens.
